Overview

The Tsugaru Shimokita Walk tour is a stunning journey through Japan's Tohoku region located in the northern part of the main island Honshu. The region is well known for its countryside, mountains, lakes, hot springs and high quality rice. Settlement of Tohoku initially occurred between the 7th and 9th centuries, well after civilization had been firmly established in other parts of Japan.

Your tour begins in Aomori City, the prefectural capital which began its life as a port town. From here explore the culture, history and food of Tsugaru and Shimokita. In both areas, the most astonishing and unforgettable experience may be their breathtaking natural beauty. Places such as Oirase Stream, Osorezan (Mt. Osore) and the Hotoke-ga-ura Coastline are revered by nature lovers and photographers. Throughout the tour, allow yourself to take in the ways of the people who endured in this rugged land.
